

I am writing in reference to allowing LPFM priority over existing FM translator services. I listen to K-LOVE on 94.9 on the FM dial in Memphis, Tenn., five days a week or more, in my car and at my home. I've been a listener for six years. These types of stations are listened to and loved by people across the nation. It doesn't matter to me that the signal is coming from Calif. The station broadcasts news I'm interested in both nationally and locally and music I enjoy. Please don't cause this station to go off the air.

Thank you for your consideration.

Ellen A. Lepaske
